ABOUT ME

Senior Quality Assurance & Test Automation Specialist with 7+ years of professional experience driving software quality, functional testing, and data migration across Financial Market Infrastructures (FMIs) and payment systems. Proven track record in executing end-to-end functional, integration, regression, and User Acceptance Testing (UAT) for high-value payment processing platforms, alongside migration rehearsals and cutover executions. Proficient in developing test automation scripts and productivity workflows using Python, VBA, and Power Automate. Skilled in analyzing software requirements, drafting functional specifications, and coordinating with business representatives and service providers to ensure 100% compliance with central banking and payment standards.

WORK EXPERIENCE

Nagarro Software Pvt. Ltd. – Noida, India

Senior Quality Assurance Engineer

[01/07/2022 – 01/09/2025]

- Managed end-to-end quality assurance, functional testing, and risk-based test execution across financial market infrastructure platforms and transaction processing systems.
- Led functional, integration, regression, and UAT execution for core payment messaging systems, verifying adherence to complex business requirements and ISO 20022 standards.
- Supported migration rehearsals, data reconciliation, and cutover readiness by performing backend database verification and pre/post-migration data validation using SQL and Python.
- Engineered and maintained test automation scripts and workflow utilities using Python, VBA, and Power Automate, reducing manual execution effort by 60% and automating test evidence compilation.
- Analyzed user requirements to draft functional specifications, detailed test scripts, change request assessments, and defect analysis reports in JIRA/TestRail.
- Collaborated directly with business representatives, developers, and external service providers to resolve defect bottlenecks during critical migration and release cycles.
- Optimised quality assurance frameworks, boosting defect detection efficiency by 45% while delivering robust test execution summaries and audit evidence.

Cognizant Technology Solutions Pvt. Ltd. – Noida, India

Technical Analyst - QA

[01/05/2021 – 30/06/2022]

- Managed quality engineering, integration testing, and API verification for large-scale enterprise payment gateways and transaction engines.
- Tested newly developed features against business specifications and functional requirements to ensure zero high-severity defect leakage.
- Executed REST API testing with Postman and validated transaction updates across backend SQL databases (Oracle, PostgreSQL, MS SQL).

- Developed lightweight VBA macros and Python scripts to automate metric reporting and change request documentation.
- Coordinated with cross-functional business partners, suppliers, and service providers in Agile setups to support seamless user acceptance testing.

 **Infosys Pvt. Ltd** – Hyderabad, India

Software Engineer - QA Analyst

[01/04/2018 – 30/04/2021]

- Executed functional, integration, and backend testing across data-driven financial software systems.
- Designed and maintained test plans, test cases, and execution evidence in HP ALM and TestRail.
- Conducted manual testing and backend data reconciliation via SQL to ensure consistency and business rule compliance

SKILLS

Domain Knowledge

Payment Systems / Transaction Processing / Insurance / Banking / SEPA / Target2/T2S

Business Analysis

Functional Specifications / Requirement Analysis / Risk based testing / Agile (Scrum) / Software Analysis / Release Management / Defect Management

Testing & Change Management

DATA MIGRATION / Functional Testing / Integration Testing / Regression Testing / API Testing / UAT Testing/Approver / Functional & Non-Functional Testing / QA Methodology / Smoke Testing / Change Request Management

Tools & Programming

Postman / Guidewire / SQL / Power Apps, Power Automate, Power Flow, Power BI / Coupa Financial Software / Python (computer programming) / PlayWright / Java (computer programming) / Selenium WebDriver, Selenium IDE

Database

SQL Server / Oracle PL/SQL, Oracle DB / Snowflake Data warehouse

EDUCATION AND TRAINING

Bachelor of Technology in Computer Science and Engineering

Meerut Institute of Engineering and Technology (MIET) [01/07/2012 – 30/06/2016]

Country: India | Level in EQF: EQF level 6
